practically to one of the previous outputs (Project Coordinator Action
.Plan) to ensure data integrity, alignment, and readiness

(قائمة التحقق الشخصية) Personalized Verification Checklist

Item ID	Verification Criteria	Status	Verification Method / Evidence
		---	---
CHK-01**	**Goal Alignment:** Does the output clearly tie ** operational tasks directly to the main strategic objective?	[Passed]	Reviewed Section 1 (Goal) against Section 4 (Tasks) to ensure direct .traceability
CHK-02**	**Role Accuracy:** Are all tasks specifically tailored ** and scoped for a Project Coordinator rather than other roles?	[Passed]	Verified that ownership explicitly targets the Project Coordinator .(`PC-101` to `PC-402`)
CHK-03**	**No Hallucination / Fact Integrity:** Are all timelines, ** phases, and deliverables realistic and free of made-up metrics?	[Passed]	Cross-checked against standard project management lifecycles .(PMBOK/Agile frameworks)
CHK-04**	**Structural Completeness:** Does the plan follow the ** required chain (Goal -> Mechanisms -> Phases -> Tasks)?	[Passed]	Checked sequential flow and confirmed all four structural components are .fully articulated
CHK-05**	**Actionable Outputs:** Does every task include a clear, ** tangible deliverable/output?	[Passed]	Verified that the final column .lists concrete deliverables (e.g., RACI matrix, PIR report)
CHK-06**	**Human Accountability:** Is there a formal human sign-** off and attribution section included?	[Passed]	Confirmed Section 5 .contains reviewer details, job title, date, and supervisory note
